GOODWIN

Pultruded gratings

GOODWIN pultruded gratings are panels with open space,assembled,through specially designed process,with " I" , "T" and "HL" shaped bearing bars and interlocked with solid rods or tubes, which are all pultruded

GOODWIN pultruded gratings is light-weight,strong,anti-fire chemical and UV resistant,and reduces costly maintenance. Our pultruded gratings is well suited for highly corrosive environments and offers extended life,eliminating periodic maintenance and extra cost,which is a good alternative compared to steel gratings.
